-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2621

1. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

2. Claims 1-18 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

3. Claims 1-18 are rejected under 35 U.S.C. 251 as being based upon new matter added to the patent for which reissue is sought. The added material which is not supported by the prior patent is as follows:

The amendment filed January 27, 2004 proposes amendments to the appendix B (by way of compact disc, as stated on page 3, lines 1-4 and on page 10, lines 12-18). It is unclear to the examiner whether 1) this additional subject matter ("plug-in") was part of the original patent specification and 2) the latest version of the software is a new version containing additional subject matter.

There appears to be no support in the original patent specification for these amendments. Applicant should clearly state where support is found in the specification for these newly proposed amendments.

Applicant should clearly state what differences, if any, exist between the original Appendix B and the proposed amended Appendix B.

Applicant should also come with a statement that the Appendix contains no new matter, if that is indeed the case.

Art Unit: 2621

This is necessary in order for the examiner, and the record, to ascertain exactly what is being changed in the current reissue application.

4. All other amendments preliminary amendment filed January 27, 2004 are in compliance with this section and have been entered.
5. Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.173(b).
6. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jose L. Couso whose telephone number is (703) 305-4774. The examiner can normally be reached on Monday through Friday from 6:30 to 3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leo Boudreau, can be reached on (703) 305-4706. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-8576.
